

If you love the outdoors, Milton Keynes is the city for you. We're known as 'the city in the country'. With more than 4,500 acres of parkland, lakes, rivers and woodland you can swap city life for green spaces whenever you want.

Campbell Park is our very own 'Central Park', a green oasis in the heart of the city. Willen Lake has more than 180 acres of beautiful parkland where you can enjoy exciting watersports on the lakes or total relaxation at the Peace Pagoda.
