

# MK Underground

## The Film

Watch it online at: [www.mkartsforhealth.org.uk](http://www.mkartsforhealth.org.uk)

**MK Underground** is a project by **MK Arts for Health** in partnership with **Buckinghamshire County Museum**. Our film supports an exhibition and programme of activities raising awareness of the history of Milton Keynes.

The film was created by a group of eight volunteers working with a professional film-maker from **The Living Archive**.

The group visited and learnt about a wide range of local heritage sites and interviewed experts and re-enactors to make the film.
