

Big business. Small business. Milton Keynes is alive with opportunity.

Everything we do supports development and innovation. With private investment projects valued at more than £1 billion currently in progress, we are definitely an environment to thrive in.

We're one of the fastest growing cities in Europe and major names in business are here. We're home to global brands like Santander, Mercedes Benz, Red Bull Racing and Home Retail Group. Network Rail is building its prestigious new headquarters here – a major win for the city.
