

MILTON KEYNES NEW CITY

Much has been reported in the technical press over the past few years of this exciting City Project, and despite opinion to the contrary a great deal of design work and a massive amount of implementation is still required in this city scale project scheduled for completion in 1990. Its scale and complexity has led to a recent re-organisation rationalising still further the design and building process in order to devolve responsibility. Four major implementation teams have been formed fully serviced by Architects, Planners, Engineers, Landscape Architects, Quantity Surveyors, Programmers, Financial Officers and Administrators, ensuring a non-departmental bias for implementation.

Derek Walker is looking for additional architectural staff for these groups to join the very high quality teams already working on the total project.

The accelerating programme offers a unique opportunity at every scale of work and to all categories of technical expertise, designers, solid and experienced job runners, high grade architectural technicians, programmers and landscape architects are required for a range of work ensuring maximum job satisfaction. Jobs range from small buildings, sensitive village infill to the largest central area project in Europe and a housing programme with a striking rate of over 3,000 completed houses per annum. Innovation, variety of projects and the opportunity of working with a talented multi-national team coupled with certainty to see positive projects through from design to completion in a short period of time, make Milton Keynes attractive for serious professionals

- Ref 1024 SENIOR GROUP LEADERS (£3,870 to £4,815)
- Ref 1025 SENIOR DESIGN ARCHITECTS (£3,870 to £4,257)
- Ref 1026 EXPERIENCED JOB ARCHITECTS (£3,360 to £4,257)
- Ref 1027 ARCHITECTURAL TECHNICIANS (£3,360 to £3,750)
- Ref 1028 LANDSCAPE ARCHITECTS (£3,360 to £4,257)

Applicants for these posts would work in area groups with a rich variety of subjects ranging from Central Milton Keynes, Industrial and Commercial projects, Major Housing Schemes to sensitive village infill sites. Infrastructure and Environmental Engineering to Implementation of a 2,000 acre city park network together with its associated lakes, playing fields and building groups.

Ref 1029 DIVISIONAL ENGINEER CENTRAL AREA MILTON KEYNES (Salary range £4,779 - £5,412)

Applications are invited from suitably qualified engineers for a senior post heading out the engineering content of the central area of Milton Keynes and Central Area Housing. Applicants should have had a wide experience in all aspects of Civil and Municipal Engineering work, a high degree of design perception and an ability to run all aspects of the group's working activities, approximately seven years of post-qualification experience of which five should have been spent in positions of seniority and responsibility and should have had experience of inter-disciplinary working.

The successful applicant, whose qualifications should include MICE or MI MunE, will be expected to contribute to policy decisions and recommendations at Divisional level and will have full responsibility within his team for staffing, level of performance, administrative and liaison activities within defined procedures both within and outside the Development Corporation on matters relating to the Central Area Engineering.

Starting salaries (to which a threshold payment will be added) will be dependent upon qualifications, experience and ability, and the post which is superannuable will be subject to the Corporation's Conditions of Service, which include legal expenses for sale and purchase of a house, a settling in allowance of up to £140, and free life assurance.

Applications, QUOTING THE ABOVE REFERENCE NUMBERS, giving details of age, qualifications, experience, previous employers and the names of two referees, should be sent to the Personnel Manager, Milton Keynes Development Corporation, Wavendon Tower, Wavendon, Milton Keynes MK17 8LX by not later than Friday April 18, 1975.

'You had to get everything moving at the same time... It was a wonderful opportunity of putting together a young team.'

(Derek Walker Chief MKDC Architect and Executive Director CMK 1970-76)
