

# Milton Keynes Celebrates!

## Light Fantastic

A unique event for a unique city

*'Light Fantastic premiered in the heart of the City of Milton Keynes in October 2007 with a challenge to be a unique event for a unique city.'*

An experiential event, Light Fantastic was created by Mark Harrison and produced by The Full Effect and featured a range of hands-on displays including a futuristic Exploratorium, light parades and multiple son et lumiere displays. The major highlight of the event were French aerialists Transe Express who performed a stunning display suspended from a 150ft crane.

This public event was free to attend and attracted over 160,000 people.
